

SMART, NOT SHORTCUTS

# Your students are already using AI. This decides whether it makes them sharper or lazier.

An AI for Learning & Wellbeing program for schools. Helping students use AI to learn better, think clearer, and stay safe, with academic integrity and wellbeing built in.

A student gets home with an assessment and that quiet panic of not knowing where to start. One path turns AI into copied homework. Another turns it into a patient tutor that asks questions and checks understanding without doing the thinking for them. Students need to know the difference. That is the whole program: not more screen time, better judgement.

## WHAT STUDENTS WALK AWAY ABLE TO DO

- Ask AI for help without outsourcing their thinking
- Turn notes, readings and assessments into a study plan
- Check AI answers instead of trusting them blindly
- Use AI for reflection and organisation, safely
- Know when AI is not appropriate, and to ask a trusted adult

## Inside the room

**A note on responsibility.** This program does not teach students to cut corners, and it is not a replacement for teachers, parents or counsellors. AI can support learning and reflection, but humans remain responsible for judgement, care, and final decisions. Working With Children check current on request.

Smart, Not Shortcuts

## THREE WAYS IN

Start with one cohort, or bring the whole community along.

### The Taste

**\$1,997 + GST**

A single student pilot: a 90-minute interactive workshop for up to 70 students, live school-safe AI demos, a Student AI Playbook to keep, and a short teacher debrief. The best way to see the value with one cohort.

- Up to 70 students, 90 minutes
- Student AI Playbook (yours to keep)
- 15-minute teacher debrief

### Whole-School

**From \$5,900 + GST per term**

Because the whole community is working out AI, not just the students. The student pilot, plus a staff professional development session on AI and integrity policy, plus a parent evening that calms the biggest AI anxiety in your community. Delivered across a term.

- Student workshops across year groups
- Staff PD + integrity policy support
- Parent information evening
- Playbook + Teacher Integrity One-Pager

### Partner

**Annual, from \$4,000 + GST**

AI changes every term. Stay ahead with an ongoing advisor: policy help, an annual refresh as the tools evolve, and a private resource hub for staff and parents. The school that never has to scramble to keep up.

- Everything in Whole-School
- Annual refresh as the tech changes
- Policy help + private resource hub

**Bring Smart, Not Shortcuts to your school.**
